# It's what's under the surface that counts

Introducing Micron® CSC- CA, our newest multi-seasonal bottom paint that delivers excellent protection against all types of fouling. Designed to polish away at a controlled rate, it keeps your bottom clean and can improve boat handling and performance in all waters, from fresh water to salt water.

Like you, we have a passion for boating. We provide boaters and boatyards the hull protection they deserve with over 140 years of cutting-edge science, technology and expertise. So you can expect only the best from every Interlux® yacht paint product. Our bottom paints not only protect your hull from fouling, they also protect against the spread of invasive species, safeguarding local waters and helping you enjoy boating with peace of mind.

**Relentless performance for every boat,  
everywhere, every time**

# A Revolution in Topside Paint

Introducing our next generation, premium topside system with professional level results in an easy to use one part finish.

Toplac Plus provides a best in class high gloss finish with longer lasting UV protection that is easy to apply with exceptional roller application, without the need for tipping, available in a full range of vibrant colors.

Apply over Pre Kote Plus, our improved one part undercoat and topside primer all in one, with substrate protection, an extra smooth finish, and lower VOCs.

An amazing finish has never been so easy. Experience a revolution in topside paints, from Interlux.
